 - Port Elizabeth on day 1/2/3/4/5 truck number CV 2820: STD 18.00 STA 12.00+1 (18 hours transit)

About us

Fleet Cargolux operates a fleet of fifteen B747-400 freighters. A unique feature of the B747-400F are the temperature controlled zones, adjustable inflight from 4 until 29 degrees Celsius. With its spacious nose cargo door, the Cargolux B747-400 freighter is ideally suited for outsized cargo, such as pipelines or oil-drilling equipment, which does not fit through the side cargo door of older, converted B747 aircraft.

Road Feeder Services Cargolux's hub-and-spoke operations combine B747 capacity with direct trucking to and from the major European centres through more than 40 gateways around the world, with even more destinations available on interline.

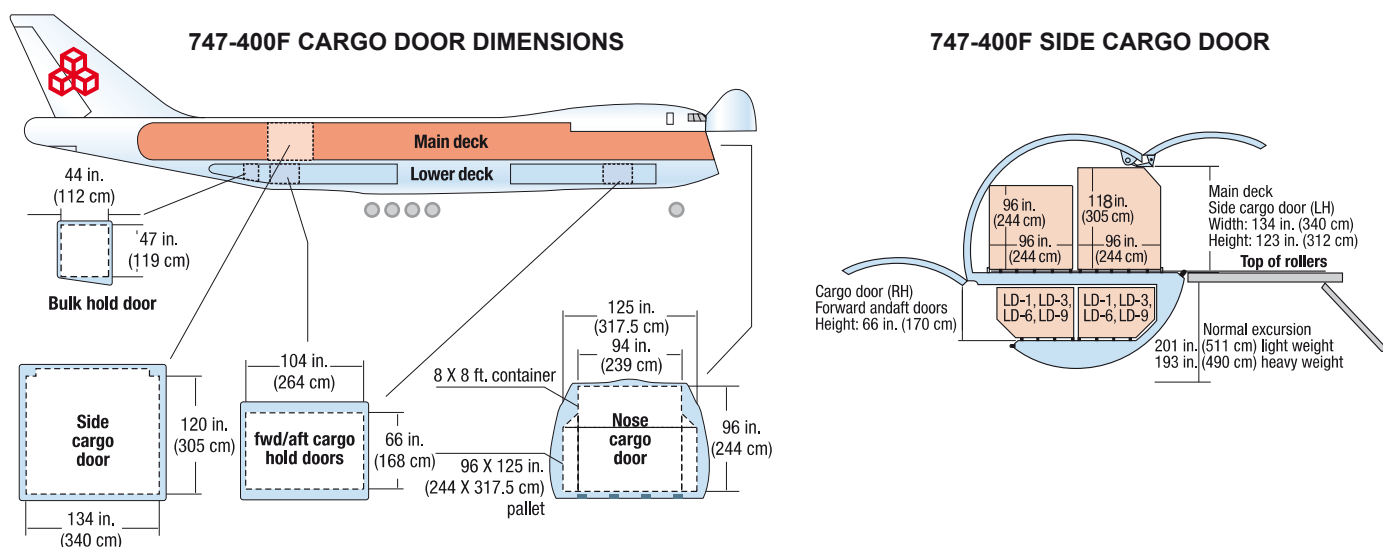

Leasing Services Cargolux provides long or short term leasing and sub-leasing services, either as a wet or dry lease.

Maintenance Services The Cargolux Maintenance Centre employs over 350 fully qualified and experienced technicians, mechanics and support staff. The facilities include two hangar bays and well equipped work shops. Capabilities range from B747 line and hangar maintenance to major airframe inspections and modifications on B737 aircraft. Other aircraft types serviced include the B757 and the B767.

Charter Services Cargolux offers a thriving worldwide full-and subcharter service.

CHAMP Cargosystems™ Cargolux is a dedicated user of an air cargo management system known as CHAMP, Cargo Handling And Management Planning, the only fully integrated financial, operations, marketing and management cargo system in the airline industry today. CHAMP is developed and marketed by CHAMP Cargosystems S.A., a joint venture company owned by Cargolux Airlines Int SA and SITA Inc.
