

We contribute to a healthier life

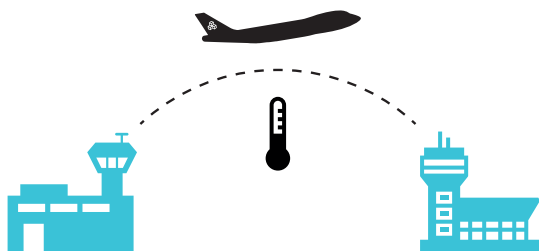

Transporting products that aim to improve lives represents an important responsibility. That's why we developed a tailor-made solutions to meet your specific and complex needs. Building on the thorough knowledge of our cool chain experts and relying on a modern freighter fleet, we ensure the safe and timely movement of high-value, temperature- sensitive shipments. Our highly trained and experienced teams will analyze your specific requirements to guarantee an end-to-end temperature- controlled process because we believe that temperature excursions are not an option.

Your benefits with CV pharma

- No waiting time on tarmac
- Temperature controlled road feeder services from origin to the LUX hub
- Dedicated teams trained in pharmaceutical and healthcare products
- Availability of first-class active/passive containers
- Thermal blankets that allow for temperature integrity for large palletized shipments
- Freight unloaded straight after landing and directly transferred to cool cells
- Consistent quality management systems throughout the transportation process
- Full compliance with IATA chapter 17

Airport-to-airport temperature controlled process for any pharma shipments

World's
1st
GDP certified airline
