

You require maximum freshness

We have temperature-controlled solutions

We provide tailored transport conditions

Moving perishables and sensitive goods across the world at the perfect temperature to preserve their mint condition requires sharp skills.

Our highly trained experts recognize the importance of essential details such as pre-departure delivery, ground times, correct storage, clearance and transport to final destination as well as continuous dialog with the customer.

4 independently controlled temperature zones in our modern 747 freighters allow the transportation of perishables at the right temperature

Thermal blankets protect sensitive cargo from extreme temperature variations upon request

Your benefits with CV fresh

- Unbroken chain of temperature-controlled environments, from origin to destination
- Vacuum cooling facilities for flowers at LUX hub
Immediate off-loading of perishables after landing and direct transfer to cooling facilities
- Non-stop long haul flights allow perishables reach their destinations faster and fresher
- Extensive and speedy road feeder service using temperature controlled trucks
- Worldwide support of perish shipments by our ground handling agents

between the truck and the aircraft at our hub in Luxembourg offers shortest transit time from/to aircraft

you name it, we fly it!
